

GHDonline.org is where healthcare implementers share proven practices, connect with colleagues, and find resources they need to improve health outcomes in resource-limited settings.

More than **3,600 members from 1,200+ organizations in 130+ countries** are exchanging information and lessons learned on GHDonline.org.

Building bridges between healthcare implementers and organizations across the globe

8 public communities guided by expert moderators:

- | | |
|--------------------------------|-----------------------------------|
| Adherence & Retention | TB Infection Control |
| Global Surgery & Anesthesia | MDR-TB Treatment & Prevention |
| Health IT | Global Health Nursing & Midwifery |
| Malaria Treatment & Prevention | HIV Prevention |

Strengthening bonds within organizations and existing networks

GHDonline.org hosts **30+ private communities** designed for organizations and initiatives, including a community that enables Partners In Health physicians in Rwanda to consult with Boston-based specialists on difficult clinical cases.

Leveraging partnerships to democratize access to critical information and tools

| UpToDate, Inc. | Journal Watch |
| Centre for Infectious Disease Research in Zambia | USAID/PATH |
| Commission Nationale de Lutte Contre le SIDA, Rwanda | HINARI |
| ITOCA | HUB |

"If I start an initiative in Pakistan in which I want a wider community of people who understand global health to join in, it just makes sense for me to go on GHDonline.org"

[Lubna Samad, Pediatric Surgeon, Indus Hospital, Pakistan, July 2009](#)

"GHDonline is the closest thing I have seen yet to a working group with the range and ability to create/refine a standard and develop a universal tool."

[Om Goeckermann, Freelance, U.S.A., June 2009](#)

"We as architects are happy to listen in and get an insight on the subject matter and be able to relate with our area of expertise. Again, thanks to your discussions we are able to understand the seriousness of the issues."

[Gobe Gaotlolwe, Architect, Ministry of Health, Botswana, October 2008](#)

"We need more than just access to information. We need to exchange knowledge and practices: this is the key to making decisions."

[Agnes Binagwaho, MD, PhD hc, Permanent Secretary of the Ministry of Health of Rwanda, September 2008](#)

Why join GHDonline?

By joining GHDonline, you will become part of a unique, collaborative platform developed by and for global health implementers.

Discussions

- Engage in real-time problem-solving with peers
- Enrich your practice by sharing your experience, challenges, and lessons from the field
- Discussions are archived and fully searchable

Resources

- Exchange critical knowledge and tools by uploading documents and links
- Resources are fully searchable

Expert Moderators, all leaders in their field, guide the communities

- They help keep discussions and resources relevant and up-to-date
- They encourage more participation and build bridges between individuals and organizations

Email

- Receive instant notifications for activity in your communities
- Start and contribute to discussions via email: great functionality for busy professionals and in areas with unreliable Internet connectivity
