Global Surgery Satellite Session
Thursday, April 6, 2017

The Global Surgical Ecosystem: Strengthening Healthcare Worldwide

This full-day satellite session will bring together leading experts to discuss and explore the fundamentals common to surgical and anaesthesia care worldwide, highlighting gaps and opportunities for strengthening health everywhere, especially in low- and middle-income countries.

The thematic sessions will include:
- DEFINING THE PROBLEM
- PARTNERSHIPS FOR EDUCATION
- EXPLORING SOLUTIONS
- MEASURING IMPACT
