

International Workshop

Overview of Health Informatics for Low- and Middle-Income Countries

23–27 July, 2018

Nairobi, Kenya

MEASURE Evaluation, funded by the United States Agency for International Development, is pleased to announce the international workshop on “Health Informatics,” for English-speaking professionals. The workshop is sponsored by the Kenyatta University School of Public Health and MEASURE Evaluation, in collaboration with the Global Evaluation and Monitoring Network for Health (GEMNet-Health). The one-week course will be held July 23–27, 2018, in Nairobi, Kenya.

The course, which is taught in English, is designed for middle- to advanced-level health information systems professionals involved in the implementation of public health programs. The course provides intensive, hands-on training in health informatics, from basics to emerging concepts as they apply to health information systems in low- and middle-income countries. This is an intermediate-level course and is suitable for professionals with or without prior experience in health informatics but who know how health information systems function.

The total course fee is U.S. \$2,100 inclusive of the workshop tuition, accommodation, partial board (breakfast daily and lunch on days when the workshop is in session), and round-trip airport transfers.

Applications must be submitted to Kenyatta University by 15 June, 2018.

Please find a brochure and application form attached. This announcement is intended not only to signal that the program is available, but also to prompt the referral of potential applicants. Consider promising employees working in health information systems of public health programs who would be able to increase their contributions to this field in your country, by enhancing their health informatics/digital health skills through attendance at this workshop. Please forward this announcement to potential applicants.

For more information, email Mr. Johnson Mugo at githinji.johnson@ku.ac.ke and copy Dr. George Otieno at otieno.george@ku.ac.ke.
