To become YAPILI Adviser all you need to do is to be a licensed doctor in your country of residence. Then you need to have an interest to participate in a good cause. Our users on YAPILI today are from: Botswana, Kenya, Nigeria, Rwanda, Tanzania, South Africa, Uganda, Zambia and Zimbabwe.

Join YAPILI Advisers community!

For more information about joining us as a YAPILI Adviser go to https://yapili.com/doctors.
If you are ready to join, click on ‘Sign Up | Log In’ or go simply to https://yapili.com/join.

Click on “Sign Up” if this is your first time on YAPILI. Use a valid e-mail address and password OR use one of your social media accounts to sign up. Once you are signed up and are coming back to YAPILI, log-in to your account using the same details.

Get yourself familiarised with our Terms of Use and Privacy & Cookie Policy.
Choose the option “I am a licensed physician” to provide answers towards users seeking health@hand.

We will then need a bit of information about you to create and validate your profile. Also get familiarised with the Adviser Agreement - the document which explains your rights and responsibilities as YAPILI Adviser.

We will request you to upload your medical licence. If you do not feel comfortable uploading it on our online form, you have an option to inform us so and one of our team members will be in contact shortly to discuss other options that could help us verify your legal status as a licensed doctor.
At YAPILI, we take security very seriously. That is why we need to ensure you are a real user with a valid email address and phone number. We will verify both your email address and phone number before reviewing your information and activating your profile on YAPILI.

Welcome to YAPILI!

Once we reviewed your information and activated your profile, you will receive an email notification from us that from now on YAPILI users will be able to select you as their Adviser.

When this happens you will be notified by email. You are then able to log in to your YAPILI profile and review the list of your Advisees and their profiles.
When your Advisee is seeking your advice, he or she will open a case—which is a message explaining their health problem. They will send messages and attach relevant pictures, documents and video files—anything that could help you to assess their health situation and provide them with valuable health advice. You will be notified by email every time your Advisee sends you a question.

We encourage you to reply within 24 hours to each user question.
You can keep chatting with your Advisee as long as you believe it is necessary. If you believe his or her question has been answered - you can go ahead and close the case. Go on the right side of the screen and click “Close” under each active case.

If the Advisee will want to continue chatting with you on this or other health related topics, they would have to “Open a new case” again.
You can make notes and reminders for yourself about your Advisees via “My Private Notes” button.

You can add more details to your profile and review it anytime via “My Profile” button.

At the end of each session, do not forget to log out of your profile.
